

**Conference Name:** Global English Education China Assembly

**Date:** July 27-30, 2023

**Presenter:** Lisa Wu

The Global English Education China Assembly was hosted at the City University of Macau from July 27 to 30, 2023. The event aimed to foster a community of passionate researchers, practitioners, and educators dedicated to the development and dissemination of ideas in the field of teaching and learning.

One notable highlight of the conference was the citation of my newly published article in *Assessing Writing* by Prof. Icy Lee from Nanyang Technological University during her keynote speech on teacher feedback literacy. It was an honor to receive recognition from such a distinguished scholar.

Throughout the conference, I attended various presentations covering topics such as global citizenship, multilingual education, and teacher education. I presented my research on "The Development of Teacher Feedback Literacy in Situ: EFL Writing Teachers' Agency in Human-Computer-AWE Integral Feedback Innovation," referencing insights from Prof. Lee.

This experience expanded my understanding of how educators creatively integrate different strands of research, boosting my confidence in conceptualizing new research ideas.
